ABOUT ME

I am a **Bachelor of Information and Communication Technology (B.ICT) undergraduate** at the **University of Vavuniya**, passionate about building modern web applications. I have a strong foundation in **frontend development** using HTML, CSS, and JavaScript, along with **backend skills** in PHP and MySQL, including server-side logic, database management, and form handling. I enjoy creating end-to-end solutions, from designing user-friendly interfaces to implementing functional backend systems. Eager to learn and grow, I am seeking a **Full Stack Developer Intern** role where I can contribute to real-world projects, enhance my technical skills, and collaborate with a professional development team.

EDUCATION

Bachelor of Information and Communication Technology(BICT)

University of Vavuniya

2022 – Present

SKILLS

Web Development:

HTML, CSS, JavaScript

Tools & Design:

GitHub, VS Code, Postman, Figma, Adobe XD, Canva, Freedcamp

Backend Technologies:

PHP , MySql

LANGUAGES

Tamil

Native

English

Proficient

PROJECTS

Modern Login & Register System

- Login & Register UI - A responsive frontend component with a modern design. Includes smooth form interactions and client-side validation using pure HTML, CSS, and JavaScript.

Responsive Coffee Shop Website

- Built a fully responsive web application using **HTML, CSS, and JavaScript** with mobile-first design and cross-browser compatibility.
- Improved UI performance and navigation, enhancing overall user experience.
- Designed flexible grid layouts and images for seamless display across devices.

Internship job website

- Designed and developed a responsive internship job website using **HTML, CSS, and JavaScript**.
- Implemented **basic PHP and MySQL connectivity** to understand server-side processing and data storage.
- Practiced handling user inputs, form submission, and displaying data from the database.
- Focused on clean UI design, simple navigation, and learning full-stack web application flow.

University Hostel Management System

- Developed a **full stack web-based hostel management system** using **HTML, CSS, JavaScript, PHP, and MySQL** to manage student accommodations, room allocation, and hostel records.
- Implemented **role-based user access** (Admin, Warden, Student) with database-driven features such as room management, student records, and basic fee tracking using **CRUD operations**.
- Designed a **responsive and user-friendly interface** and integrated frontend forms with backend processing, ensuring smooth data flow and efficient hostel administration.

CERTIFICATES

Web Design for Beginners

- University Of Moratuwa (2025)

Front End Web Development

- University Of Moratuwa (2025)

Server-side Web Programming

- University Of Moratuwa (2025)

Introduction to Adobe XD

- Simplilearn (2025)

Postman API 101

- University of Vavuniya(2025)

LadyProto 1.0 Design Hackathon

- IEEE Student Branch, University of Vavuniya

SOFT SKILLS

- Teamwork & Collaboration
- Problem-Solving & Critical Thinking
- Time Management & Organization
- Adaptability & Flexibility
- Communication

EXTRA CARICULAR ACTIVITIES

Member of IEEE

University Of Vavuniya

Member of Mozilla Club

University Of Vavuniya

Participant

ICT EXPO 3.0, University of Vavuniya
