Personal Portfolio Website

About Me

A motivated Bachelor of Information and Communication Technology (BICT) undergraduate at the University of Vavuniya with hands-on experience in full-stack web and mobile application development. Skilled in Java, Spring Boot, React.js, TypeScript, and PostgreSQL. Experienced in developing REST APIs, building responsive user interfaces, QA testing, and application deployment. Passionate about creating reliable, user-friendly software solutions and continuously improving technical skills.

Education

University of Vavuniya 2023 – Present
Bachelor of Information and Communication Technology (BICT) *Sri Lanka*

Experience

Samuel Gnanam IT Centre May 2026 – October 2026
Software Engineer Intern *Sri Lanka*

- Developed and enhanced web and mobile features for an AI-assisted Defect Tracker application to manage and monitor software defects.
- Performed QA testing to identify bugs, validate functionality, and improve application reliability.
- Supported application deployment and collaborated with team members to troubleshoot issues and improve application quality.

Languages

Languages: Tamil(Native), English(Proficient)

Technical Skills

Programming Languages: Java, JavaScript, TypeScript, HTML, CSS, PHP

Frontend Development: React.js, React Native, Tailwind CSS

Backend Development: Spring Boot, Spring Data JPA, Spring Security, REST APIs, JWT Authentication

Database Management: PostgreSQL, MySQL

Development Tools: IntelliJ IDEA, Visual Studio Code, Postman

Version Control & Cloud: Git, GitHub, Microsoft Azure

Projects

Defect Tracker System – AI-Assisted | *React*, *TypeScript*, *Spring Boot 3*, *Spring Security*, *JWT*, *PostgreSQL*, *Tailwind CSS*

- Individually developed a full-stack defect tracking system with AI assistance to manage and monitor software defects.
- Implemented JWT-based authentication using Spring Security and developed a responsive frontend with React, TypeScript, and Tailwind CSS.

Defect Tracker System – Mobile Application | *React Native*, *Expo*, *TypeScript*, *Spring Boot*, *PostgreSQL*, *REST APIs*

- Developed a mobile application to simplify software defect tracking and management.
- Integrated the mobile frontend with a manually developed backend using REST APIs.

Defect Tracker System | *React.js*, *Java*, *Spring Boot*, *PostgreSQL*, *REST APIs*

- Collaborated on a full-stack defect tracking system during a Software Engineer internship to manage software bugs and track issue lifecycles.

- Contributed to a decoupled frontend and backend architecture to support defect management workflows.

Library Management System | *React.js, Java, Spring Boot, PostgreSQL, REST APIs, Tailwind CSS*
- Developed a web-based library management application with user and book CRUD operations.
- Implemented borrowing, returning, and late-return fine calculation features using Spring Boot and PostgreSQL.

School Management System | *Java, Spring Boot, Spring Data JPA, PostgreSQL, Swagger*
- Developed a backend REST API with CRUD operations and entity relationship management using Spring Data JPA.
- Integrated Swagger documentation to support API testing and documentation.

Internship Job Website | *HTML, CSS, JavaScript, PHP, MySQL*
- Developed a responsive internship job website with PHP and MySQL connectivity for server-side processing and data storage.
- Implemented user input handling, form submissions, and database-driven data display.

University Hostel Management System | *PHP, MySQL, HTML, CSS, JavaScript*
- Developed a web-based system to support hostel management and simplify administrative tasks.
- Implemented database-driven functionality and responsive user interfaces.

Responsive Coffee Shop Website | *HTML, CSS, JavaScript*
- Built a responsive coffee shop website with a mobile-first design and cross-browser compatibility.
- Implemented flexible layouts, responsive images, and improved navigation for better user experience.

Login & Register UI | *HTML, CSS, JavaScript*
- Developed a responsive login and registration UI with modern styling, smooth form interactions, and client-side validation.

Personal Portfolio Website | *React.js, JavaScript, HTML, CSS*
- Designed and developed a responsive personal portfolio website using React.js to showcase technical skills, projects, certifications, and professional experience.
- Created reusable components and interactive user interfaces with responsive layouts for an improved user experience across devices.

Certifications

LadyProto 1.0 Design Hackathon | IEEE Student Branch, University of Vavuniya *2024*

ReactJS for Beginners | Simplilearn *2024*

Web Design for Beginners | University of Moratuwa *2025*

Front End Web Development | University of Moratuwa *2025*

Server-side Web Programming | University of Moratuwa *2025*

Introduction to Adobe XD | Simplilearn *2025*

Postman API 101 | University of Vavuniya *2025*

Soft Skills

Teamwork, Problem-solving, Time Management, Adaptability, Communication

Extra-Curricular Activities

Member of IEEE - University of Vavuniya

Member of Mozilla Club - University of Vavuniya

Participant – ICT EXPO 3.0 - University of Vavuniya
